

FONDAZIONE BIOERGOTECH • TARANTO

Vivere più a lungo: sport e intelligenza artificiale

Living Longer: Sport and Artificial Intelligence

Two days in Taranto on how sport, robotics and artificial intelligence can lengthen and improve life. This document sets out the sponsorship tiers available for the December 2026 edition, the programme they support and the terms that apply.

DATES

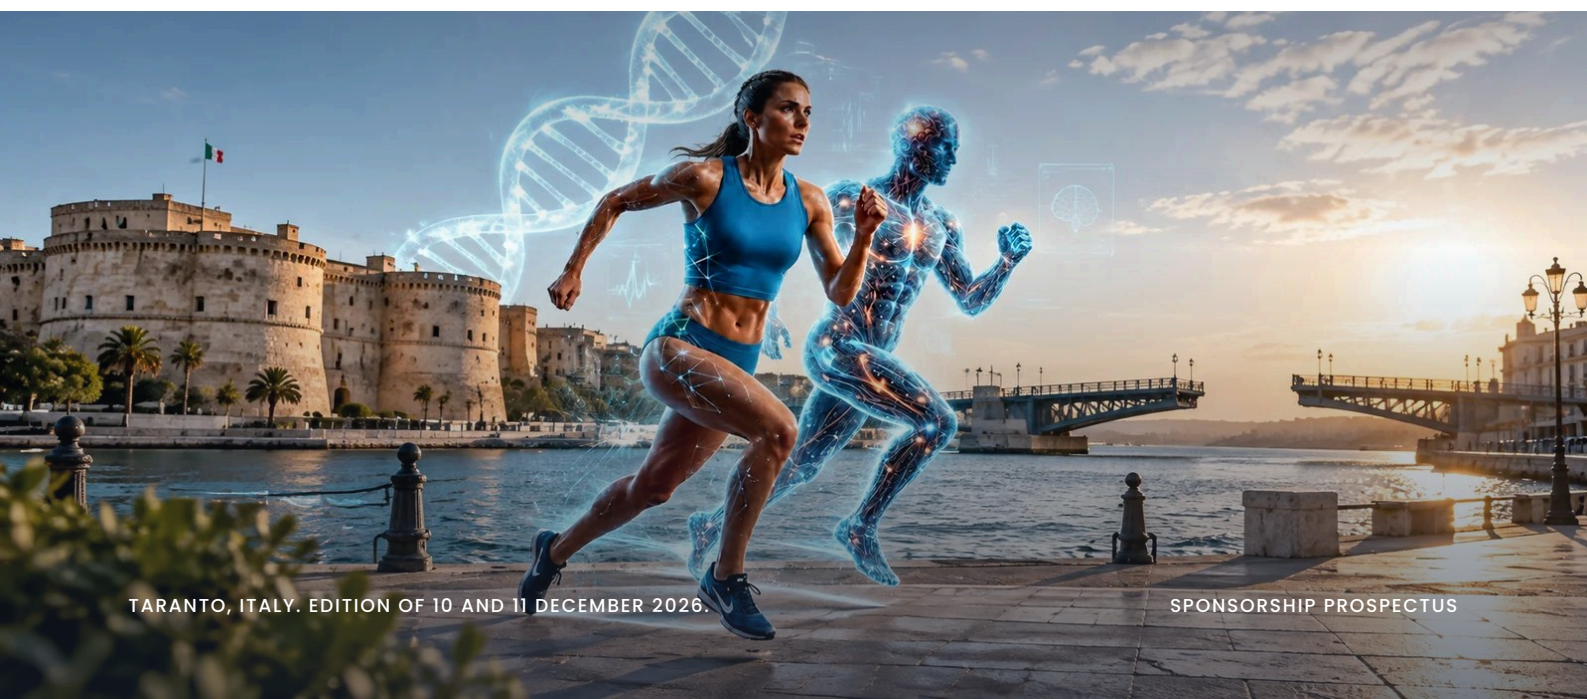

Thursday 10 and Friday 11 December 2026

VENUES

Day one: PalaMazzola, Taranto, 9:00 to 16:00. Day two: Teatro Fusco, Taranto, 9:00 to 13:00.

ORGANISER

Organised by Fondazione bioERGOTech, with SafesPro as organising body for the call for projects.

01 · CONTEXT

Why this event

This edition does not stand on its own. It continues a line of work begun with the Taranto Biotech Days in 2024 and carried to Rome in October 2025, and it sits inside a longer institutional plan that reaches past the two days in December. What follows sets out that context: where the initiative comes from, where the Foundation operates, and what it is working towards.

2024

Taranto Biotech Days

Where the initiative began, in Taranto.

OCTOBER 2025

Rome, Palazzo Montecitorio

Held on 28 and 29 October in the Sala della Regina, at the Italian Chamber of Deputies.

DECEMBER 2026

Vivere più a lungo, Taranto

Two days at the PalaMazzola and the Teatro Fusco, on 10 and 11 December.

FROM 2027

Zurich and Riyadh

Two further hubs in development, alongside the aim of a research centre in Taranto.

Where this edition comes from

The initiative began with the Taranto Biotech Days in 2024. On 28 and 29 October 2025 it was held in Rome, in the Sala della Regina of Palazzo Montecitorio, the seat of the Italian Chamber of Deputies. The December 2026 edition in Taranto is the next step in that sequence. The venues and the dates of each edition are a matter of public record.

Three hubs, at three different stages

The Foundation works from Taranto and is opening two further locations. Taranto is operational today and is where the work currently happens. Zurich and Riyadh are in development from 2027, and are described here as such, with no claim made for them beyond that. Each of the three is listed below with its role and its current status.

The route towards a research centre

The stated long-term aim of the Foundation is the establishment of a research centre in Taranto and the growth of an enterprise ecosystem in the area. That is an aim, not an achievement, and it is written here as one. The two days in December are one instrument towards it. They bring research, clinical practice, sport, students and enterprise into the same room, in the city where the centre is intended to be built.

The three hubs

Taranto

ITALY

Experimental Hub

The founding home, with a physical Startup Hub and the Distributed Lab, inside a Special Economic Zone with tax benefits.

OPERATIONAL

Zurich

SWITZERLAND

Talent and Innovation Hub

A strategic hub for European and international partnerships, embedded in one of the world's leading life-sciences ecosystems.

IN DEVELOPMENT, FROM 2027

Riyadh

SAUDI ARABIA

Clinical Translation Hub

A strategic presence aligned with Vision 2030, opening access to a fast-growing Saudi healthcare market.

IN DEVELOPMENT, FROM 2027

02 · SCALE

The numbers

The figures below are taken from the published programme of the two days and from the call for projects. Where a number is a venue capacity it is stated as such.

2

Days

10 and 11 December 2026, in two venues in Taranto.

7

Panels on day one

Moderated discussions, alternating with the student pitches.

15

Speakers and guests

The speakers and guests named in this document.

10

Student projects in competition

Presented in three blocks on day one, before the judging committee.

3

Prizes

One for each category of the call for projects, awarded on day two.

Up to 15

Projects on the Showcase stage

Admitted by public selection across three categories.

300

Seats at the PalaMazzola, day one

Venue capacity.

150

Seats at the Teatro Fusco, day two

Venue capacity.

DAY	DATE	VENUE	TIME	SEATS
Day one, Thursday	10 December 2026	PalaMazzola, Taranto	9:00 to 16:00	300 seats
Day two, Friday	11 December 2026	Teatro Fusco, Taranto	9:00 to 13:00	150 seats

Day one runs at the PalaMazzola, from 9:00 to 16:00. Seven panels on health, prevention, sport, robotics and artificial intelligence alternate with three blocks of student pitches: ten teams in competition, three minutes each, two of pitch and one of questions. Simona Rolandi, journalist with Rai, moderates the day. It closes with the announcement of the winning team, a lunch reserved for speakers, guests, partners and sponsors, and a concert open to those present. Day two runs at the Teatro Fusco, from 9:00 to 13:00, with the Showcase of Innovation: research teams, university spin-offs, startups and operating companies admitted through the public selection held with SafesPro, in three categories that follow the stage of the project, then the awards and the closing concert.

A partner is present inside this programme rather than alongside it. Over two days the same schedule brings together clinicians and researchers, Olympic and professional athletes, a member of parliament and the president of a national professional body, teachers and students, and companies working on prevention, longevity, robotics and artificial intelligence applied to health. The event also sits in a defined line of work: Taranto Biotech Days in 2024, the two days held in the Sala della Regina at Palazzo Montecitorio in October 2025, and now Taranto again, on the way to the Foundation's stated aim of a research centre in the city and an enterprise ecosystem around it. Association with the event is association with that process, and with the working relationships formed in the room.

03 · PROGRAMME

The programme

Two days in two venues in Taranto. Day one at the PalaMazzola alternates seven panels on sport, health, robotics and artificial intelligence with the students' competition, and closes with a concert. Day two at the Teatro Fusco is given to the Showcase of Innovation, the awards and the closing concert.

Day one

PalaMazzola, Taranto

Thursday 10 December 2026 · 9:00 to 16:00

OPENING

Opening and institutional greetings

Welcome, an introduction to the day and to the students' competition.

Organising committee · Institutions

1 PANEL

Health, prevention and sport

How thromboembolic risk is recognised and prevented, and what changes in a body that trains every day. From early diagnosis to the habits that protect circulation, well beyond competitive sport.

Franco Piovella
Angiologist

Agostino Abbagnale
Olympic champion,
rowing

Olivia Botticelli
Basketball
player

2 PANEL

Rules, professions and institutions

Who holds health data, who writes the rules, and how the work of those beside the patient is changing. A discussion between the professional body and the legislator on what is needed for innovation and the protection of the person to advance together.

Andrea Mandelli
President, FOI

Hon. Simona Loizzo
Chamber of
Deputies

STUDENTS

Student projects, first block

Teams one to four take the stage: three minutes each, two of pitch and one of questions.

3 PANEL

The athletic gesture and the machine

What a robot learns by observing an athlete, and what an athlete learns from the measurement of their own movement. Balance, coordination and reaction times read through robotics, up to the limits the machine has yet to cross.

Francesco Monervino
Former
captain, Napoli

Bruno Siciliano
Robotics,
Federico II

4 PANEL

Sport, disability and inclusion

What happens when a team genuinely opens up: autonomy, confidence and bonds that form on the field before they form in care pathways. The experience of those who accompany young people with disabilities, told by the people who live it every day.

Mariangela Tari
Writer

Giffoni
Experience

Diavoli Rossi

La casa di Sofia

BREAK

Coffee break

A pause and networking for the audience and the participants.

STUDENTS

Student projects, second block

Teams five to seven, in the same format as the first block.

Day one

PalaMazzola, Taranto

Thursday 10 December 2026 · 9:00 to 16:00

5 PANEL

The body that regenerates

The path that leads from injury or diagnosis back to activity: real timescales, treatment and the less visible part of recovery, the mental one. Rheumatology and sporting testimony on what it means to begin again.

Daniela Marotto
Rheumatologist

Aldo Montano
Olympic champion,
fencing

Manuel Bortuzzo
Paralympic swimmer

STUDENTS

Student projects, third block

Teams eight to ten close the competition.

AWARDS

Announcement of the winning team

The judging committee assesses the ten projects, awards the winning team, and the session closes with the official photographs.

CONCERT

Concert at the PalaMazzola

A musical moment open to the audience present. The artist is to be confirmed.

6 PANEL

Science, technology and new generations

How scientific curiosity is sparked and how it is kept alive when study becomes difficult. Science communication, discipline and talent: what young people really need in order to build a path, inside and outside the classroom.

Vincenzo Schettini
Science communicator

Valentina Vezzali
Olympic champion,
fencing

7 PANEL

Living longer

The theme that gives the day its title: how much prevention, movement and early diagnosis really weigh on the years we live and on how we live them. Oncology and sport meet on the daily choices that make the difference.

Mario Franchini
Oncologist

Fabio Galante
Former defender, Inter

LUNCH

Lunch

By invitation only: speakers, guests, partners and sponsors.

Day one at the PalaMazzola is moderated by Simona Rolandi, journalist with Rai.

A Gala Dinner is held alongside the two days. Seats at it are allocated by sponsorship tier, and the naming of the dinner is available on the rate card.

Day two

Teatro Fusco, Taranto

Friday 11 December 2026 · 9:00 to 13:00

At the Teatro Fusco, a showcase of innovation with startups, university spin-offs, research centres and projects from the area. The award ceremony follows, with three prizes and the closing concert.

SHOWCASE

Showcase of Innovation

Projects reach the stage through a public selection run by Fondazione bioERGOtech with SafesPro, open to research teams, university spin-offs, startups, innovative SMEs and established companies. Up to 15 projects are admitted to the live presentation, across seven thematic areas from biotechnology for health to artificial intelligence, medical robotics, longevity, sport, inclusion and laboratory automation.

AWARDS

Award ceremony

Three prizes are assigned, one for each category: a 12-month support programme run by the Foundation, a 12-month residency at the bioERGOtech Startup Hub in Taranto, and a programme of introductions to investors and industrial partners in the Foundation's network.

CATEGORIES

Three categories on stage

Category A, ideation, admits up to six projects, with three minutes of pitch and two of questions. Category B, enterprise creation, admits up to five projects, with five minutes of pitch and three of questions. Category C, company with capital raised, admits up to four projects, with seven minutes of pitch and three of questions.

CONCERT

Closing concert

The two days close with a musical moment at the Teatro Fusco.

04 · SHOWCASE

The Showcase of Innovation

A public call, an evaluation commission, and up to 15 projects on stage on the morning of 11 December.

The Showcase of Innovation closes the event on the morning of Friday 11 December 2026, at the Teatro Fusco in Taranto. The places on that stage are filled by open public selection: a call issued on 31 July 2026 by Fondazione bioERGOtech with SafesPro as organising body, open without geographical restriction and with no participation fee. Up to 15 projects are admitted, across three categories that separate ideas still to be incorporated from young companies and from companies that have already raised capital. Selection carries more than stage time. Admitted projects present before investors, industrial partners, clinicians and institutions, meet the network the Foundation operates across Taranto, Zurich and Riyadh, and appear on the event materials and on the official channels of the Foundation and of SafesPro. They also gain access to the services of the ecosystem, the Distributed Lab, the Startup Hub, the network of advisers and support with the NIDI, Mini-PIA and PIA regional programmes, and they enter the Foundation's flow of introductions towards incubators, accelerators and clinical partners.

The three categories

	STAGE	THRESHOLD	ON STAGE	PITCH
A	Ideation	Informal teams, research groups, spin-offs in formation and projects that have not yet incorporated a company. The project stands at concept, feasibility study or proof of concept stage.	Up to 6 projects	3 minutes of pitch, 2 of questions
B	Enterprise creation	Companies incorporated no more than 36 months before the application deadline, with a prototype or MVP built or well advanced, that have not closed capital raises above € 500,000 in total. Equity, venture debt, convertible instruments and competitive grants already disbursed or awarded all count towards that total.	Up to 5 projects	5 minutes of pitch, 3 of questions
C	Company with capital raised	Operating companies that have closed one or more capital raises totalling € 500,000 or more, or that have established revenues, and are seeking industrial partnerships, clinical validation or a further round.	Up to 4 projects	7 minutes of pitch, 3 of questions

The prize in each category

Category A · Ideation

A 12-month support programme run by the Foundation: dedicated scientific mentorship, access to the Distributed Lab, grant writing support within the Project Genesis cycle for participation in research calls, and free membership of the Foundation.

Category B · Enterprise creation

A 12-month residency at the bioERGOTech Startup Hub in Taranto: access to prototyping facilities, administrative and legal support, guidance through the NIDI, Mini-PIA and PIA regional incentive programmes, and free membership of the Foundation.

Category C · Company with capital raised

An introduction programme to investors and industrial partners within the Foundation's network, with access to the clinical validation pathway at partner facilities and one year of membership of the Foundation.

Each category is scored out of 100. A project that does not reach 60 points does not take the category prize, which in that case is not awarded. The criteria differ by category: innovation and scientific soundness weigh most at the ideation stage, degree of validation and business model for young companies, demonstrated traction and scalability where capital has already been raised. A tie on the total is resolved by the leading criterion of the category.

The seven thematic fields

- **Biotechnology for health**
Biotechnology applied to health, diagnostics and regenerative medicine.
- **Artificial intelligence**
Artificial intelligence for prevention, early diagnosis and the management of health data.
- **Robotics and medical devices**
Robotics, medical devices and technologies for rehabilitation and functional recovery.
- **Longevity and sports medicine**
Longevity, healthy ageing and sports medicine.
- **Sport and injury prevention**
Sport, measurement of athletic movement, injury prevention and return to activity.
- **Inclusion and assistive technologies**
Inclusion, disability and assistive technologies.
- **Laboratory automation**
Laboratory automation, research instruments and enabling infrastructure.

The evaluation commission

- A representative of the scientific direction of Fondazione bioERGOTech, acting as chair.
- A representative of SafesPro, as organising body.
- One or more representatives of the investment community, from venture capital funds, business angels or innovation finance instruments.
- One or more representatives of industry and of the Foundation's industrial partners.
- One or more experts from scientific and university research in biotechnology, robotics and artificial intelligence.
- A representative of the clinical community, for the health relevance of the solutions presented.
- A representative of local institutions or of the chamber of commerce system, in an advisory capacity and without voting rights.

Selection calendar

Opening of applications	Already open
Deadline for submission	31 October 2026, 23:59
Eligibility review	1 to 10 November 2026
Notification of the projects admitted to the Showcase	By 20 November 2026
Delivery of final materials	By 4 December 2026
Showcase and awards	11 December 2026, Teatro Fusco, Taranto

What the selection means for a partner of the event

For a partner of the event, the Showcase is the part of the programme where the pipeline becomes visible. What reaches the Teatro Fusco stage has already passed an eligibility review and a scored assessment before a Commission that seats investment, industry, research, clinical practice and institutions. The three categories map that pipeline by stage, from first concepts to companies with capital raised and revenues, so a field of interest can be followed over successive editions rather than for a single morning. The dossier on the admitted projects, the meetings with them and the seat on the Commission are set out in the tier pages that follow.

SPONSORSHIP TIER 1 OF 5

€ 50,000

EXCLUDING VAT

Main Partner

One position available.

Exclusive across all commercial sectors.

The 2026 edition carries the Main Partner's name alongside its own, on all materials across the two days. No other organisation holds that position.

1	table of 10	10	60 seconds
POSITIONS	GALA DINNER	TEATRO FUSCO	INSTITUTIONAL VIDEO
POSITIONING - Name in the official event lockup, on all materials across the two days - Right to use the wording "Main Partner of Vivere più a lungo 2026" in the partner's own communications for 12 months - Pre-emption right on the 2027 edition on the same financial terms, exercisable by 31 January 2027	STAGE AND CONTENT - Opening keynote of 10 minutes, or a seat on one of the panels, at the partner's choice - Naming of one of the three Showcase prizes, presented by the partner's senior leadership - One panel recorded in a "presented by" edit, online with no expiry 60-second institutional video at both events	TALENT - Recruiting desk and access to the pool of university students who have given their consent - A student challenge built on a real problem brought by the partner - Up to three of the partner's staff involved as mentors or on the jury	PHYSICAL AND DIGITAL PRESENCE - Branded lounge and premium desk at the PalaMazzola - Logo on badges, lanyards, the photographic backdrop, the speakers' seating and the LED wall - Lower third on the live stream - Dedicated newsletter to the event database
ACCESS AND BUSINESS - Confidential dossier on the projects admitted to the Showcase, delivered ahead of the event - A session of organised one-to-one meetings with the selected projects - Closed-door round table hosted by the partner, with up to ten guests chosen jointly - Introduction to the Foundation's network in Zurich and Riyadh - Annual Foundation membership included		HOSPITALITY - Private table of ten at the Gala Dinner 10 reserved seats in the stalls at the Teatro Fusco, with Green Room access	AFTER THE EVENT - Post-event report with attendance data, press review, digital metrics and indicators usable in sustainability reporting - Photo and video library released for commercial use for 12 months

CATEGORY EXCLUSIVITY

This position is exclusive across every commercial sector for the 2026 edition.

FOURTEEN DAY OPTION

On request the position is held for fourteen days while the agreement is prepared, and shows as under option on the Partner page of the website.

TWO EDITIONS

2026 and 2027 taken together carry a 15 per cent reduction on the total, with the tier held for both.

All prices are exclusive of VAT. The early rate applies until 31 October 2026, after which the full rate applies, 15 per cent higher. Individual assets can be added to any tier: the rate card is on page 15.

06 · RATE CARD

À la carte rate card

Individual assets from the two days are available separately from the tier structure. Each one carries its own price and a declared number of positions. All prices are exclusive of VAT and are the early rate, in force until 31 October 2026.

These assets may be taken in addition to a tier or on their own.

ASSET	PRICE	POSITIONS
Naming of the Gala Dinner	€ 15,000	1
Naming of the closing musical moment at the PalaMazzola	€ 12,000	1
Naming of the Showcase of Innovation	€ 15,000	1
Sponsorship of the live stream	€ 10,000	1
Named scholarship	€ 8,000	3
Naming of a panel	€ 6,000	7
Lanyards and badges	€ 6,000	1
On-site production studio across the two days	€ 5,000	2
Coffee breaks and lunch	€ 4,000	1
Participant welcome kit	€ 3,000	1
Shuttle service and guest reception	€ 3,000	1
Additional Gala Dinner seats	€ 150 per seat	Not applicable

The closing musical moment is offered as a naming right in its own terms. The performing artist has yet to be confirmed.

Technical Partner, in kind

Goods or services, including hospitality, transport, staging, catering, technology and video production, valued at rate card and certified by a quotation. The benefits are those of the cash tier corresponding to the value recognised.

Athlete & Speaker Content, on request

Production of video content with the athletes and scientists present, shot on a dedicated set across the two days, with usage rights on the sponsor's channels. Availability, format and commercial terms are defined case by case, in agreement with the person involved.

07 · TERMS

How the offer works

Four mechanics govern the offer set out in this document. They apply across all tiers, they are stated in full, and they are the same for every partner.

Category exclusivity

At the top three tiers the partner that takes a position closes its own commercial sector for the 2026 edition. One position per sector, from the list below. The sector remains held for the duration of the agreement.

Declared caps

Every tier carries a maximum number of positions, written in this document. There is one Main Partner, up to two Scientific & Innovation Partners, up to six Official Partners and up to twelve Supporting Partners. The Contributor tier is open. The caps are verifiable and the Foundation does not exceed them.

Pricing window

The early rate applies until 31 October 2026. After that date the full rate applies, 15 per cent higher.

14-day option

On request a position at a given tier is held for fourteen days while the agreement is processed. For the duration of the hold, that position is shown as under option on the Partner page of the website.

THE COMMERCIAL SECTORS HELD UNDER CATEGORY EXCLUSIVITY

Pharmaceutical

Commercial conditions

Payment

50 per cent on signature, the balance no later than 30 days before the event. Both instalments are payable at 30 days from the invoice date. Above € 25,000 the payment may be divided into three tranches.

VAT

VAT applies at 22 per cent. For the sponsor the cost is fully deductible as advertising expenditure.

Charitable donation

A donation to the Foundation may be made under art. 83 of the Italian Third Sector Code. That route is kept strictly separate from the offer described here. A donation cannot carry advertising consideration, and therefore confers none of the benefits set out in this document.

Two editions, 2026 and 2027

The 2026 and 2027 editions may be taken together, at 15 per cent off the total. The tier and the category exclusivity are locked for both editions.

In-kind contributions

Goods and services are valued at rate card and certified by a supporting quotation. The benefits recognised are those of the cash tier corresponding to the value recognised.

All prices in this document are exclusive of VAT.

How to join

- 1 Enquiry**
Write to the Foundation indicating the tier or the individual assets of interest. The Foundation confirms availability at that tier and, where category exclusivity applies, in the commercial sector.
- 2 Option**
On request the position is held for fourteen days while the agreement is prepared. For that period it appears as under option on the Partner page of the website.
- 3 Agreement**
The Foundation issues the agreement, which sets out the tier, the benefits included and the payment schedule. The signed copy is returned to the Foundation and countersigned.
- 4 First instalment**
On signature, 50 per cent is invoiced and is payable at 30 days from the invoice date. The balance falls due no later than 30 days before the event.
- 5 Onboarding of materials**
Logos, video files and any naming details are supplied to the Foundation, together with the names for reserved seats and hospitality. Formats and delivery dates are agreed with the Foundation's contact.

TELEPHONE**Avv. Domenica Leone**

347 7320692. Director of the Scuola di Alta Formazione e Studi Specializzati per Professionisti (SafesPro) and Vice President of Fondazione bioERGotech.

Fondazione bioERGotech, registered office: Via Ciro Giovinazzi 70, 74123 Taranto, Italy.

The 2026 edition is one step in a course that runs from Taranto Biotech Days in 2024, through Sala della Regina at Palazzo Montecitorio in October 2025, towards the establishment of a research centre in Taranto and the growth of an enterprise ecosystem around it. The Foundation is available to discuss any of the positions described in this document, and the terms on which a partnership would be recognised.
