Five partnership tiers, from € 2,500 to € 50,000

PalaMazzola and Teatro Fusco, Taranto
Early rate until 31 October 2026

Why this event

Taranto 2024, Montecitorio 2025, Taranto 2026

This edition does not stand on its own. It continues a line of work begun with the Taranto Biotech Days in 2024 and carried to Rome in October 2025, and it sits inside a longer institutional plan that reaches past the two days in December. What follows sets out that context: where the initiative comes from, where the Foundation operates, and what it is working towards.

2024	October 2025	December 2026
Taranto Biotech Days Where the initiative began, in Taranto.	Rome, Palazzo Montecitorio Held on 28 and 29 October in the Sala della Regina, at the Italian Chamber of Deputies.	Vivere più a lungo, Taranto Two days at the PalaMazzola and the Teatro Fusco, on 10 and 11 December.
2 Days, two venues	7 Panels on the main stage	15 Speakers and guests
		Up to 15 Projects on the Showcase stage

Where the Foundation works

Taranto Italy · Operational	Zurich Switzerland · In development, from 2027	Riyadh Saudi Arabia · In development, from 2027
Experimental Hub The founding home, with a physical Startup Hub and the Distributed Lab, inside a Special Economic Zone with tax benefits.	Talent and Innovation Hub A strategic hub for European and international partnerships, embedded in one of the world's leading life-sciences ecosystems.	Clinical Translation Hub A strategic presence aligned with Vision 2030, opening access to a fast-growing Saudi healthcare market.

Day two is a public selection

Up to 15 projects reach the Teatro Fusco stage through an open call run with SafesPro, admitted by a Commission that seats investment, industry, research, clinical practice and institutions. Three categories separate research teams and spin-offs still to incorporate, companies under 36 months old, and companies that have raised € 500,000 or more. A partner at the top two tiers receives the dossier on those projects before the event and meets the ones it chooses.

The route towards a research centre

The stated long-term aim is a research centre in Taranto and an enterprise ecosystem around it. These two days are one instrument towards it, and a partner is associated with that process.

Who is on stage

Fifteen speakers and guests, and the moderator

The room is the product. Clinicians and researchers, Olympic and professional athletes, a member of parliament and the president of a national professional body sit on the same seven panels, moderated by Rai. A partner is inside that programme rather than alongside it.

What a partner takes away

Six things the two days produce

Category exclusivity is the mechanism

At the top three tiers one organisation per commercial sector holds the position for the 2026 edition. Pharmaceutical, medical devices, insurance, energy, banking, automotive, sports nutrition and telecommunications.

Position

The partner name enters the official event lookup and every material of the two days, with the right to use the title in its own communications for 12 months. At the top three tiers the commercial sector is closed to competitors for the edition.

INCLUDED AT **Main Partner, Scientific & Innovation Partner, Official Partner**

The stage

An opening keynote of 10 minutes or a seat on one of the panels, naming of a prize, a panel or the Showcase of Innovation, and one panel recorded as a presented by edit that stays online with no expiry.

INCLUDED AT **Main Partner, Scientific & Innovation Partner**

The project pipeline

A confidential dossier on the projects admitted to the Showcase, delivered before the event, one-to-one meetings with the ones of interest, and a seat with voting rights on the Commission that scores them.

INCLUDED AT **Main Partner, Scientific & Innovation Partner**

The network

Introduction to the Foundation network across Taranto, Zurich and Riyadh, a closed-door round table hosted by the partner with up to ten guests chosen jointly, and a private dinner with four of the scientific speakers.

INCLUDED AT **Main Partner, Scientific & Innovation Partner**

Talent

A recruiting desk and access to the pool of university students who have given their consent, a challenge built on a real problem brought by the partner, and up to three of its people involved as mentors or on the jury.

INCLUDED AT **Main Partner. On request at Scientific & Innovation Partner**

Proof afterwards

A post-event report with attendance data, press review, digital metrics and indicators usable in sustainability reporting, and the photo and video library released for commercial use for 12 months.

INCLUDED AT **Report at the top three tiers. Library at Main Partner**

Technical Partner, in kind

Goods or services, including hospitality, transport, staging, catering, technology and video production, valued at rate card and certified by a quotation. The benefits are those of the cash tier corresponding to the value recognised.

Athlete & Speaker Content, on request

Production of video content with the athletes and scientists present, shot on a dedicated set across the two days, with usage rights on the sponsor's channels. Availability, format and commercial terms are defined case by case, in agreement with the person involved.

Any of these can be added to a tier

An asset taken on its own carries no tier benefits. Availability is confirmed at enquiry, and a position is held for fourteen days on request while the agreement is prepared.

How to join

Five steps, and the terms that apply

1

Enquiry

Write to the Foundation indicating the tier or the individual assets of interest. The Foundation confirms availability at that tier and, where category exclusivity applies, in the commercial sector.

2

Option

On request the position is held for fourteen days while the agreement is prepared. For that period it appears as under option on the Partner page of the website.

3

Agreement

The Foundation issues the agreement, which sets out the tier, the benefits included and the payment schedule. The signed copy is returned to the Foundation and countersigned.

4

First instalment

On signature, 50 per cent is invoiced and is payable at 30 days from the invoice date. The balance falls due no later than 30 days before the event.

5

Onboarding of materials

Logos, video files and any naming details are supplied to the Foundation, together with the names for reserved seats and hospitality. Formats and delivery dates are agreed with the Foundation's contact.

Terms

Payment

50 per cent on signature, the balance no later than 30 days before the event. Both instalments are payable at 30 days from the invoice date. Above € 25,000 the payment may be divided into three tranches.

VAT

VAT applies at 22 per cent. For the sponsor the cost is fully deductible as advertising expenditure.

Charitable donation

A donation to the Foundation may be made under art. 83 of the Italian Third Sector Code. That route is kept strictly separate from the offer described here. A donation cannot carry advertising consideration, and therefore confers none of the benefits set out in this document.

Two editions, 2026 and 2027

The 2026 and 2027 editions may be taken together, at 15 per cent off the total. The tier and the category exclusivity are locked for both editions.

In-kind contributions

Goods and services are valued at rate card and certified by a supporting quotation. The benefits recognised are those of the cash tier corresponding to the value recognised.

Pricing window

The early rate applies until 31 October 2026. After that date the full rate applies, 15 per cent higher.

14-day option

On request a position is held for fourteen days while the agreement is prepared, and shows as under option on the Partner page of the website.
